

⚠ THE PROBLEM

Hiring is **broken.**

Resumes and interviews don't reveal the real potential.
You need a better way to find builders who can actually deliver.

Resumes look impressive.

But they don't prove someone can actually build, solve problems or deliver results.

Portfolios don't tell the full story.

Most portfolios lack context, process, or real proof of the builder's thinking and execution.

Interviews waste your time.

You end up interviewing too many candidates who aren't a fit, delaying great hiring.

Ranqlet changes that.

Evaluate real skills through challenges. Discover proven builders. Hire with confidence.

HOW RANQLET WORKS
